3	Seek Clarification Start Date	12-Dec-2025	(17:00)
4	Seek Clarification End Date	17-Dec-2025	(16:00)
5	Pre Bid Meeting Date	Not Required	Not Required
6	Bid Submission Start Date	18-Dec-2025	(15:00)
7	Bid Submission End Date	2-Jan-2026	(15:00)
8	Bid Opening Date	2-Jan-2026	(15:30)

Chapter-1 : Instruction to bidders

- A. The Tender should be enclosed with proper certifications like Agency Certification, Authorization certificate and/or Proprietary Certificate, as the case may be, in support of your offer.
- B. बोली का जमा किया जाना / **Submission of Bids:**
The bids should be submitted online in two parts –
 - 1 (i) **The Technical Bid (Annexure-I, II, IV & V) and Tender Acceptance Letter**
 (ii) **The Financial Bid (Annexure-III) & Price Bid in .XLS Format**
Rates in .xls format will only be considered for Financial evaluation & further processing.
 - 2 The bids should be on official pad preferably with GST Number of the firm

- 3 The quotations should bear full details and where possible may be duly supported with catalogues, pamphlets, literature, samples of the item/items as the case may be for comparing the quality and rates of the item(s).
- 4 The transportation cost, insurance charge etc., if any, percentage/ rate of GST or all other taxes and duties should be clearly mentioned.
- 5 The bids / rates / tenders should remain valid for a minimum period of 90 days from the date of financial opening.
- 6 The rates shall not be subject to escalation of any nature.
- 7 The rates quoted should be applicable to educational institutions and any cost advantage received in lieu thereof should be passed on the Institution.
- 8 While quoting / sending rates, the firm shall give an undertaking as per Annexure-II.

C. विधि निक्षेप/ Earnest Money Deposit (EMD):

In lieu of Bid Security/Earnest Money Deposit (EMD), declaration as per Appendix-A should be provided.

D. निष्पादन बैंक प्रत्याभूति/ Performance Bank Guarantee (PBG):

In case the total order value of items becomes Rs.25.00 Lakhs or above, 3% of the total order value in the form of Bank Guarantee or FDR pledged in favor of "The Registrar, IIT Roorkee" is required at the time of installation of the equipment which should remain valid at least during the warranty period plus sixty days. No interest shall be claimed by the bidder on the PBG submitted.

E. बोलियों का खोला जाना/ Opening of Bids:

- 1 The Technical Bids will be opened online at CPPP Portal (<https://eprocure.gov.in/eprocure/app>)-Plz refer Critical Date Sheet
- 2 The Financial bids of only the Technically Qualified bidders will be opened. The date and time for opening the Financial Bid will be communicated to the respective firm later by the system (CPP Portal (<https://eprocure.gov.in/eprocure/app>))
- 3 Representatives of the firms(s) may be present at the time of openings, if they so desire.

Chapter-2 : Conditions of Contract

F. ठेका देना/ Award of Contract:

The final selection of the bidder for the award of the contract will be made on the basis of the lowest commercial bid amongst the Technically Qualified Bidders.

Prices of optional item will not be considered to identify lowest price bid.

G. पूर्व-आपूर्ति निरीक्षण/ Pre-supply Inspection:

Authorized representative of the Institute shall make the final inspection before supply of the item at site of the firm, if required.

H. वस्तु की आपूर्ति/ Supply of Item:

The whole supply as per order shall have to be completed within the time mentioned in the order failing which the I.I.T. Roorkee shall have the right to accept or reject any quantity of items ordered. The firm will have to arrange for supply of the material in good condition.

I. भुगतान की शर्तें/ Payment Terms:

A. Payment in INR for supply of goods:

Where installation is not required: 100% payment will be made after satisfactory delivery of material duly certified by the HOD/P.I.

OR

Where Installation is required :100% payment will be made after satisfactory delivery and installation of the material duly certified by the HOD/P.I.

OR

Upto 80% payment on receipt and acceptance of goods/service by the indenter and the balance on successful installation and commissioning by the supplier and acceptance by the indenter.

B. Payment in INR for AMC/Service:

Quarterly/Halfyearly after satisfactory completion of work/service duly certified by the H.O.D./P.I.

J. दंड/Penalty:

A penalty of 0.5% of the total order value per week shall be levied for the delay subject to a maximum of 5% of the total order value.

In case of the non-supply of the item/service after the acceptance of the work/supply order, EMD & PBG (if submitted) will be forfeited by the Institute. Also, the firm will be debarred from any future bidding process of IIT Roorkee for a period of a minimum two year.

K. अप्रत्याशित घटना/Force Majeure:

For the purpose of and within the scope of contract by way of indication and not of limitation, the term “Force Majeure” shall mean acts of nature, strikes, Lockouts, or other industrial disturbances, act of public/enemy, wars, blockades, insurrection, riots, epidemics, landslides, earthquakes, storms lightening, flood, washouts, civil disturbances, explosion and any other similar even not within the control of either party on which by exercise of due care and diligence neither party is able to prevent or overcome.

L. मध्यस्थता / Arbitration:

If any dispute which may arise with respect to any term and condition or with respect to the interpretation of any term and condition of the Purchase Order/Work Order, which may be issued to the qualified and successful tenderer subsequently, the same shall be settled strictly in accordance with and in compliance of the Arbitration procedure which is mentioned descriptively in the Purchase Order/ Work Order.

M. बोली अस्वीकृती के लिए मानदंड / Criteria for bid rejection:

- 1 If technical bid found without the required undertaking (Annexure-II), EMD & Self Certificate (Annexure-IV)
- 2 If it found at a later date that any information given in the bids is Incorrect/false then the bid is liable to be disqualified/rejected.
- 3 Canvassing in any form will result to disqualification.
- 4 If “extra, as actual” etc. are mentioned against any of the price components in the bid the bid will be rejected.
- 5 If the firm quotes 'NIL' charges / consideration, the bid shall be treated as unresponsive and will not be considered.
- 6 If financial bid is found along with technical bid in pdf on CPP Portal, then the bid shall be rejected outrightly.
- 7 If any bidder submitting two/multiple bids for the same item of a tender, both/all the bids of that bidder will be outrightly rejected.

Chapter-3 : Schedules of requirements

N. टिप्पणी / Note:

- 1 If the supplier/firm is manufacturer/authorized dealer/sole distributor/of the item, the certificate to this effect should be attached.
- 2 Please note that the firms must submit the compliance Statement in an organized and structured manner in respect of all the specifications as per Annexure-V with the supporting catalogue/leaflet of the firm. Annexure-I, II, & IV have to be submitted with Technical Bid and Annexure-III with financial bid.
- 3 It may also be noted that the tender bids received after the stipulated date & time or found incomplete and the tender bids containing false/incorrect information shall be summarily rejected. The Institute shall not entertain any communication in this regard, whatsoever.
- 4 The firm is required to give its Bank Account details with IFSC for the purpose of making e-payment.
- 5 The Indian Institute of Technology (IIT) Roorkee reserves the right to reject any quotation wholly or partly without assigning any reason.
- 6 The quantity shown in the tender can be increased or decreased to any extent depending upon the actual requirement.
- 7 The decision of the institute in all matters relating to eligibility, acceptance, rejection of the bid will be final and binding on the applicants.
- 8 IIT Roorkee discourages High Sea Sale purchase. All tenders with High Sea Sale will be rejected.
- 9 The firms should clearly mention (in the financial bid) the Harmonized System of Classification (HS code) defined by the Central Custom and Excise Board (Govt. of India)- for the item(s) involving import.
- 10 **If the bid opening date happens to be a holiday, then the bid will be opened at 3.30PM of the next working day followed by the holiday.**
- 11 If an agent submits bid on behalf of the Principal/OEM, the same agent can not submit a bid on behalf of another Principal/OEM in the same tender for the same item/product.
- 12 Indian Agent should submit the certificate from the Foreign Principal that they are the Authorized & Registered Indian Agent.
- 13 The quantity shown against the item is approximate and may vary as per demand of the Institute at the time of placing order. Also, the final requirement of each line item will be decided by the Institute at the time of placing the PO.
- 14 **Any corrigendum/addendum/errata in respect of the Tender Notice/ Enquiry letter shall be made available CPP Portal (<https://eprocure.gov.in/eprocure/app>). Hence prospective bidders are advised to visit the CPP Portal (<https://eprocure.gov.in/eprocure/app>) regularly.**
- 15 Bidders shall be responsible for the correctness of the information provided in the enquiry letter/tender document. If it is found at a later date that any information given in the bid is Incorrect/false then the bid is liable to be disqualified/rejected.
- 16 Before submission of bids, bidders should read the complete enquiry letter/tender document carefully and ensure that the bidders fulfill the eligibility criteria.

- 17 In case the item/product is under rate contract with DGS&D or GeM, then Bidder should certify that the rate quoted is not over and above (higher side) the rates under RC with the DGS&D or GeM.
- 18 **In Item Wise BoQ .xls sheet, In column M, leave blank for the item/service not provided/quoted by you. If quoted 0 then it will be considered that the item/service will be provided free of cost.**
- Or**
- In Item Rate BoQ .xls sheet, If quoted 0 for the items/services in column M then it will be considered that the items/services will be provided free of cost.**
- 19 **The bidder must quote the applicable GST appropriately in the price bid format provided i.e BoQ in .xls format. In case column of GST left blank, quoted 0, or inappropriate, then total quoted amount shows in column BB would be final inclusive of GST & other charges. The difference in GST amount payable – if any will be borne by the bidder. In this case, the basic unit prices will be suitably adjusted by the bidder – if required.**
- 20 **Only 'Class-I local supplier' and 'Class-II local supplier', as defined in the Public Procurement (Preference to Make in India), Order 2017 shall be eligible to bid in tender. For more details please refer: Order No.: P-45021/2/2017-PP (BE-II), DPIIT, Ministry of Commerce and Industry issued Dated: 16th Sept. 2020.**
- Self-certificate has to be provided in this regard that the item offered meets the local content requirement for 'Class-I local supplier' & 'Class-II local supplier'. (As per annexure-IV)**
- 21 **The Institute reserves the right to rectify any discrepancy of this advertisement, if found later on. In case of any inadvertent mistake in the process which may be detected at any stage even after the issue of purchase order, the Institute reserves the right to modify/withdraw/cancel any communication made to the bidder.**

Chapter-4 : Specifications and allied Technical details

Plz. See Annexure- I, II, IV, V

Chapter-5 : Price Schedule (to be utilized by the bidders for quoting their prices online in .XLS format at CPPP Portal (<https://eprocure.gov.in/eprocure/app>))

Plz. See Annexure- III & Price Bid in .XLS Format

Chapter-6 : Contract Form

Purchase Order is used as Contract Form

Chapter-7 : Other Standard Forms, if any to be utilized by the purchaser and bidders

Instructions for Online Bid Submission

Instructions to the Bidders to submit the bids online through the Central Public Procurement Portal for e-Procurement at <https://eprocure.gov.in/eprocure/app>. Also, any modification on CPP portal in reference to below will be applicable. Therefore, for more details and update please refer CPP Portal (<https://eprocure.gov.in/eprocure/app>).

- 1 Possession of valid Digital Signature Certificate (DSC) and enrollment/registration of the contractors/bidders on the e-Procurement/e-tender portal are prerequisite for etendering.
- 2 Bidder should register for the enrollment in the e-Procurement site using the "Online Bidder Enrollment" option available on the home page. Portal enrollment is generally free of charge. During enrollment/registration, the bidders should provide only valid and true information including valid email id. All the correspondence shall be made directly with the contractors/bidders through email id as registered.
- 3 Bidder need to login to the site through their user ID/ password chosen during enrollment/registration.
- 4 Then the Digital Signature Certificate (Class III Certificates with signing key usage) issued by SIFY/nCode/eMudra etc. recognized by Controller of Certifying Authorities (CCA) India on eToken/SmartCard, should be registered.
- 5 The registered DSC only should be used by the bidder in the transactions and should ensure safety of the same.
- 6 Contractor/Bidder may go through the tenders published on the site and download the tender documents/ schedules for the tenders.
- 7 After downloading/getting the tender document/schedules, the Bidder should go through them carefully and then submit the documents as required, otherwise bid will be rejected.
- 8 Any clarifications may be sought online through the tender site, through the contact details or during pre-bid meeting if any. Bidder should take into account the corrigendum if any published before submitting the bids online.
- 9 Bidder may log in to the site through the secured login by the user id/ password chosen during enrolment/registration and then by submitting the password of the e-Token/Smartcard to access DSC.
- 10 Bidder may select the tender in which he/she is interested in by using the search option and then move it to the 'my tenders' folder.
- 11 From my tender folder, he may select the tender to view all the details uploaded there.
- 12 It shall be deemed that the bidder has read and understood all the terms and conditions before submitting the offer. Bidder should go through the tender schedules carefully and upload the documents as asked; otherwise, the incomplete bid shall stand rejected.
- 13 Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document/ schedule and ordinarily it shall be in PDF/xls/rar/jpg/dwf formats. If there is more than one document, all may be clubbed together and provided in the requested format. Bidders Bid documents may be scanned with 100 dpi with black and white option. It is advisable that each document to be uploaded through online for the tenders should be less than 2 MB. If any document is more than 2MB, it can be reduced through zip/rar and the same if permitted may be uploaded. The file size being less than 1 MB the transaction uploading time will be very fast.
- 14 The Bidders can update well in advance, the documents such as certificates, annual report details etc., under "My Space option" and these can be selected as per tender requirements and then send along with bid documents during bid submission. This will facilitate the bid submission process faster by reducing upload time of bids.
- 15 Bidder should submit the Tender Fee/ EMD as specified in the tender. Scanned copy of the same should be uploaded as part of the offer. (if applicable)
- 16 While submitting the bids online, the bidder shall read the terms and conditions and may accept the same to proceed further to submit the bid packets.
- 17 The bidder has to select the payment option as offline to pay the Tender FEE/ EMD as applicable and enter details of the same. (if applicable)
- 18 The details of the DD/any other accepted instrument, physically delivered, should tally with the details available in the scanned copy and the data entered during bid submission time, otherwise submitted bid shall not be acceptable or liable for rejection. (If applicable)
- 19 The bidder has to digitally sign and upload the required bid documents one by one as indicated. Every act of using DSC for downloading the bids and uploading their offers shall be deemed to be a confirmation that they have read, understood and agreed with all clauses of the bid document including General conditions of contract without any exception.

- 20 The bidder has to upload the relevant files required as indicated in the cover content. In case of any irrelevant files, the bid may be rejected.
- 21 If the price bid format is provided in a spread sheet file like BoQ_XXXX.xls, the rates offered should be entered in the allotted space only and uploaded after filling the relevant columns. The Priced-bid/BOQ template shall not be modified / replaced by the bidder; else the bid submitted is liable to be rejected for the tender.
- 22 The bidders are advised to submit the bids through online e-tendering system to the Tender Inviting Authority (TIA) well before the bid submission due date and time (as per Server System Clock). The TIA shall not be held responsible for any delay or the difficulties faced during the submission of bids online by the bidders.
- 23 After the bid submission (i.e. after Clicking "Freeze Bid Submission" in the portal), the acknowledgement number indicated by the system should be printed by the bidder and kept as a record of evidence for online submission of bid for the particular tender and also be used as entry pass to participate in the bid opening.
- 24 The time settings fixed in the server side and displayed at the top of the tender site, shall remain valid for all actions of requesting, bid submission, bid opening etc., in the e- Tender system. The bidders should follow such time during bid submission.
- 25 All the data being entered by the bidders would be encrypted using Public Key Infrastructure (PKI) encryption techniques to ensure the secrecy of the data. The data entered is not retrievable by unauthorized persons during the bid submission and until the time of bid opening by any person.
- 26 Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid openers' public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- 27 The confidentiality of the bids is maintained with the use of Secured Socket Layer (SSL) 128 bit encryption technology. Data storage encryption of sensitive fields is done.
- 28 The bidder should logout of the tendering system using the normal logout option available at the top right hand corner and not by selecting the (X) exit option in the browser.
- 29 For any queries regarding e-Tendering process, the bidders may contact at address as provided in the tender document. Parallely for any further queries, the bidders are advised to contact over phone: **0120-4001005** or send an e-mail to – cppp-nic@nic.in.

Prequalification

- 1 An undertaking by the firm that it has never been black-listed in the last three years must be attached along with the Bid, failing which the Bid shall be rejected. (As per Annexure-II)
- 2 True copy of Permanent Account Number.
- 3 Details of GST along with a copy of certificate to be attached.
- 4 Submission of samples if required, for all items indicated in the NIT. The make of items proposed to be supplied should be indicated and submitted along with the techno commercial unpriced bid without indicating the pricing components.
- 5 Willingness to execute all orders which are placed to meet emergency requirement on priority basis. The Bidder shall note that standards for workmanship, material and equipment, and references to brand names designated by the Purchaser in the tender document are intended to be descriptive only and not restrictive. The Bidder may substitute alternative standards, brand names and/or catalogue numbers in his bid, provided that it demonstrates to the Purchaser's satisfaction that the substitutions ensure substantial equivalence to those designated in the Technical Specifications.

Tender Acceptance Letter
(To be given on Company Letter Head)

Date:

Sub: Acceptance of Terms & Conditions of Tender.

Tender No. 2025260395/MM-4/IITR/2025-26/FLOOR-MOUNTED X-RAY DIFFR/MIED/443

TECHNICAL SPECIFICATIONS W.R.T. FLOOR-MOUNTED X-RAY DIFFRACTOMETER

Quotations are invited from OEM, or their authorized distributors for the supply of a High Resolution XRD (Floor mounted) system with Data Acquisition and Software, Power Backup and Chiller System with the following descriptions:

A. General:

1. The XRD systems should be primarily designed for performing qualitative and quantitative phase analysis of powder and thin film (with GIXRD) samples, X-Ray Reflectivity (XRR), residual stress and texture analysis.
2. The system should be fully computer controlled with a hardware and software for all the measurements and analyses of features included at A 1. The software should be licensed for 3 independent computers.
3. The system should be capable of working in reflection as well as in transmission mode based on the availability of suitable hardware and software.
4. The system should be capable of analysing samples consist of Ceramics, Composites, Mesoporous samples, Ferrous and Nonferrous Metals and Alloys, Polycrystalline Thin films, Nanomaterials, etc.
5. The quoted model must have Atomic Energy Regulatory Board (AERB) approval; copy of the approval must be submitted along with the technical bid.
6. System should be supported by manufacturer for the supply of spares for at least 10 years after installation.
7. OEM should provide details of at least FIVE Reference Academic/Research Institutes/Private Industries, where the quoted model is working satisfactorily.
8. Delivery of the complete package must be completed within 3 (three) months from the date of the PO.

B. Technical:

The XRD System must comply with the following specifications:

S.N.	Essential Technical Specification for a Floor-Mounted XRD System	
1.	X-Ray Generator	
	a. Power Output	3 kW or higher
	b. Voltage	Maximum output voltage: ≥ 50 kV with voltage step size 1 kV
	c. Current	Maximum current: ≥ 60 mA with a current step size 1mA
	d. Input	Voltage: 220 – 240 V Frequency: 50 Hz \pm 1%
	e. Stability	$\leq 0.01\%$ with 10% mains variation
	f. Control	Should have feature to control the Tube power (ramping, stand by, burn-in etc.) through software
	g. Safety & Cooling	<ul style="list-style-type: none"> • Should ensure safe operation and have a control to deal with cooling temperature, cooling water pressure, voltage variations etc. • Should have a compatible and suitable external cooling system (water chiller).
	h. Compatibility	The system should be compatible with Cu, Co, Cr, Mo, Ag etc. targets with appropriate filters.

2.	X-Ray Tube	
	a. Power	Maximum output: ≥ 2.2 kW (5–60 mA)
	b. Insulation	Ceramic
	c. Focus	Long fine focus with one line focus. It is desirable to have line focus and point focus in the same tube and the changeover from line focus to point focus and vice versa without disconnection of water and electrical connections.
	d. Anode source	<ul style="list-style-type: none"> • Cu Anode. • The XRD system should also be able to work with other X-ray sources like Mo, Co, Fe, Cr, Ag.
	e. Safety	Electro-magnetic shutter interlocked with radiation enclosure.
3.	Power Supply	240 V / 50 Hz single phase
4.	Goniometer	
	a. Type	<ul style="list-style-type: none"> • Theta-theta goniometer (Bragg-Brentano geometry), Vertical. • The sample stage must remain in horizontal position during scanning. The goniometer movement should be stepper motor-based, fitting with high precision optical encoder.
	b. Geometry	Bragg-Brentano focusing and parallel beam geometry
	c. Scan mode	<ul style="list-style-type: none"> • Should be able to work in coupled and decoupled mode. • Continuous scan mode
	d. Scan (2θ) range	-90° to 165° or better
	e. Scanning speed	$0.05^\circ/\text{min}$ to $20^\circ/\text{min}$, or better
	f. Positioning	Optical encoder based
	g. Step-size precision	$\pm 0.0001^\circ$ or better
	h. Angle reproducibility	$\pm 0.0001^\circ$ or better
	i. Goniometer radius	≥ 240 mm
5.	Sample stage/platform/holder	
	a. Stage	Sample stage with spinning facility during measurement. The spinning speed should be controllable through XRD software.
	b. Sample holder	<ul style="list-style-type: none"> • PMMA/Glass/Steel sample holder (60 Nos.) along with Silicon low background sample holder with groove for small number (2 Nos.) of samples should be included. • Facility to hold small thin-film samples through vacuum should be available. • X-Y Translation (Minimum 10 mm) also should be available. • Zero background sample holder is desirable for performing XRD measurement on small sample amount, e.g. 100 mg with cavity (1 No.)
	c. Sample changer	Auto sample changer with provision of mounting minimum 60 samples at a time.

AP

6.	Optics	
	a. Mirror and Control	<ul style="list-style-type: none"> • The XRD System must have fully automated software-controlled, tool-free and alignment-free switchover from Bragg-Brentano Geometry to Parallel Beam Geometry without physical intervention using graded parabolically curved multilayer mirror and suitable optics in both incident and diffracted beam side. • The optical system of the quoted XRD must be such that it generates two separate independent beam paths. • Focusing beam using Motorized Variable software-controlled divergent slit system in the incident beam side for Bragg-Brentano geometry. The software-controlled slit opening should be able to control the X-ray illuminated area of the sample surface from 0.5 mm to 20 mm during the scanning. The slit should be able to work in both variable as well as in fixed mode. Receiving slit opening should be controlled through software. • Parallel beam using Graded parabolic Multilayer mirror in incident beam side for thin film application. • Thin Film attachment for Grazing Incidence X-ray Diffraction (GIXRD), X-ray Reflectivity (XRR) experiments. • Optics to carry out Residual Stress and Texture experiments of thin films and bulk materials.
	b. Air scattering reduction	<ul style="list-style-type: none"> • Motorized Beam knife above the sample surface to reduce the air scattering at low incident angle and improving the counting statistics at high incident angle must be quoted. This feature must be supported by product Catalogue, application report. Details of the working mechanism must be provided in the technical bid. • Beam collimator with suitable dimensions with in-focus x-ray beam during Residual Stress and Texture measurement.
	c. Slits	<ul style="list-style-type: none"> • Motorized variable software controlled automated anti-scatter slit system in the diffracted beam side for Bragg Brentano geometry. • Equatorial soller slits/ parallel plate collimator in diffracted beam side for use with parallel beam geometry in case of thin film application.
7.	X-Ray Detector	
	a. Type	<ul style="list-style-type: none"> • Zero-Dimensional (0D), One Dimensional (1D) Si-strip Solid State detector with static and dynamic scanning. It should be possible to switch between 0D and 1D mode electronically. • The detector must be able to collect 2D XRD data from sample without manual intervention.
	b. Efficiency	≥ 99% (For Cu Kα radiation)
	c. Global Count Rate	10 ⁸ cps or better for whole detector (desirable: background noise ≤ 0.05 cps).
	d. Active area for the detector	≥ 200 mm ²

	e. Minimum pixel resolution	≤ 75 μm.
	f. Minimum No. of strips/channel	190 or higher. All the strips/channels of the quoted system must be active and usable for XRD data collection.
	g. Energy resolution	≤ 400 eV without using any additional secondary monochromator.
	h. Angular resolution	Should have good resolution for all radiation like Cu, Co, Mo, Cr & Ag etc.
	i. Spurious radiation detection	Should be able to discriminate unwanted radiation without Kβ filters or secondary monochromator.
	j. Detector versatility	<ul style="list-style-type: none"> • There must not be any requirement to changing the hardware or X-ray for fluorescing samples e.g. Steel, Ti-alloys etc. while using the Cu X-ray Tube. This feature must be supported by Applications report and details must be included in the technical bid. The detector must not use any Kβ filter or secondary monochromator while analysing steel, Ti-alloys etc. using Cu X-ray tube. It also must not use any gas or liquid in its operation. • The detector must be usable with Cu, Co, Cr, Mo, Ag X-ray tubes.
8.	Thin Film Accessories	
		<ul style="list-style-type: none"> • Parabolically curved multilayer mirror for parallel beam geometry in incident beam side. • Equatorial soller slit for parallel beam geometry in diffracted beam side. • The changeover from Bragg -Brentano focusing geometry to parallel beam geometry and vice versa in both incident and diffracted beam side must be software controlled and automated and alignment free without any physical intervention to the XRD system. The vendor must clearly explain such changeover procedure in their technical bid.
9.	Calibration Standards and Data Quality	Should provide a NIST standard samples and data quality guarantee on the angular position. Necessary company document in support of the claim must be enclosed along with the Technical Bid.
10.	Data Acquisition and Processing	
	a. Software	For alignment of optics, instrument parameter setting, operating, controlling and monitoring the motors.
	b. Automatic Measurement	<ul style="list-style-type: none"> • Software should be able to run various measurement option automatically and in different modes. • There should be preferably an option to run the measurement/experiment through user defined sequences.
	c. Data collection & Exporting	Software should have capability for data collection from both powder and thin film, processing and exporting to different standard formats.

	d. Phase analysis & Refinement	Software for Rietveld based quantitative phase analysis and ab-initio based refinement and structure solution from powder data.
	e. Database, Analysis and Measurement	Software and relevant database (ICDD etc.) for all the measurements and analyses of the features included at A 1.
	f. Software Licence	Software licenses should be retrievable in case of PC formatting or Windows update.
11.	Computer and Printer	<ul style="list-style-type: none"> • Three (3) computers (minimum i7 processor, 16 GB RAM, 256 GB SSD, 2 TB HDD, 27" LED Monitor, WINDOWS 11, with graphic card) compatible with control and analysis software for control of the system for various measurement options, and offline data analysis should be included. • One (1) colour printer for image and report printing in A4-paper.
12.	UPS	<ul style="list-style-type: none"> • The vendor must quote an adequate online 3-phase UPS system with appropriate batteries for a minimum 30 minutes back up for the XRD instrument, chiller, compressor and all other peripherals. • Minimum 36-month warranty should be provided for the UPS and battery.
13.	Safety	<ul style="list-style-type: none"> • Full radiation protection with fail/safe open close mechanism, leakage protection of radiation as per international standard. • The quoted model must have Atomic Energy Regulatory Board (AERB) approval.
14.	Compatibility	System should be compatible for future upgrades like high temperature/low temperature measurement options.
15.	Chiller & Climate Control	
	a. Chiller	A compatible chiller should be provided with the system.
	b. Climate Control	HVAC unit of appropriate capacity, if required for Roorkee, India climate condition, should be provided with the system.
16.	Spares and consumables	<ul style="list-style-type: none"> • Test samples for calibration. • Tool kit with all mechanical tools and accessories necessary for the system installation and regular operation should be provided. • Tool kit for onsite 2θ and θ alignments should also be provided. • Other requirement: The Quoted model should be supported by the OEM for the supply of spares for the next 10 years from the installation date.
17.	Installation & training	The instrument will be installed at IIT Roorkee, Roorkee Campus. Vendor should provide minimum 3-day application training after installation at the site.
18.	Service facility and down-time call attendance	<ul style="list-style-type: none"> • Supplier should mention about their service in India. • To attend the service, only OEM-certified engineers are acceptable. • Warranty period will be extended for the equivalent period for which equipment/system remained non-operational, in

AP

		case the equipment/system remain non-operational for more than 5 days. Without prejudice to any other term & condition of the contact, the said warranty extension shall be done.
19.	Acceptance criteria	<ul style="list-style-type: none"> The company should send the XRD patterns of the NIST standard samples, recorded on the machine after the fabrication of the system at the factory. Subsequently, they should demonstrate the same parameter after the installation of the machine at MIED, IIT Roorkee. The set of NIST standard samples should be provided by the company. The data collected in the offered XRD system must be publishable and is applicable for all X-ray tubes as mentioned above in point 1h.
20.	Warranty	<ul style="list-style-type: none"> Minimum three years standard warranty for instrument including the X-ray tube, Generator, Detectors, System control cards and all the accessories (chiller, computer & air compressor etc.) from the date of commissioning. Repair work or replacement of spares, if needed, shall be done on-site.
21.	Upgradability	The quoted model must be upgradable on-site for non-ambient in-situ phase analysis, Measurement of epitaxial thin films etc.

NOTE: Other Criteria/T&Cs, in consistent with the Materials Management Policy of IIT Roorkee be suitably appended to the above Technical Specifications as decided by the Departmental Technical Committee.

Date: November ¹³12, 2025.
